# A New Breed of Craftsmen

Nicholas and Harrison Condos

The name Condos is synonymous with the word blacksmith. Since 1976, the Condos family has handcrafted furniture in their Sydney workshop.

Harrison and Nicholas' passion for design, detail and architecture drove them to grow their father's company, Tecno Furniture, with an export arm: Harbour 1976. The intricate details of metal work and craftsmanship have been carefully passed down from one generation to the next.

Harbour focuses on creating outdoor and indoor furniture of unique design, incredible durability and a deep sense of culture derived from the harsh climates Australians call home.

We invite you to share in this legacy and take a step outside to enjoy the great outdoors with us.

# MLB

*Designed by Martyn Lawrence Bullard*

## A MODERN UPDATE ON A MID-CENTURY FRENCH AESTHETIC

Mid-century French design reimaged in modern proportions and outdoor materials. This bespoke collaboration with interior designer Martyn Lawrence Bullard — frequently one of *Architectural Digest's* Top 100 and permanently on *Elle Decor's* A-List — features zig-zag profiles, sling seating and a striking juxtaposition of materials in statement pieces that *Angeleno Magazine* raved are “the latest lust-haves in outdoor furniture.”

**A. MLB Brazil Chair**  
Shown in Natural Teak Frame and  
Olefin Copacabana Sand Fabric.

**B. MLB Round Side Table**  
Shown in Natural Teak Base with  
Travertine Top.

## TRANSFORM YOUR OUTDOOR SPACE

---

### OUTDOOR/INDOOR

---

Our Fire collection offers a generous surface for entertaining with a spark of intrigue and fun. Add a surprising touch to any outdoor space. We offer three fuel types: plumbed natural gas, readily available propane or eco-friendly bioethanol fuel. A perfect balance of practical space and aesthetic value, these handcrafted pieces make the outdoors truly great.

## 3 STYLES WITH 3 DIFFERENT BURNER CHOICES ENDLESS FLEXIBILITY

---

### NATURAL GAS

---

Our Natural Gas (NG) systems provide not only the lowest cost of operation, they require no refueling of any type — ever. Offering a high heat output and the flexibility to adjust the height of the flame as you desire, our Natural Gas burners feature a push button ignition and are UL/ULC listed.

---

### LIQUID PROPANE

---

Fueled by readily available propane, our LP solutions feature up to 55,000 BTUs of heat output while requiring no costs for installation. Our LP burners are UL/ULC listed, include a battery-powered push button ignition and offer the flexibility to relocate your fire feature as needed.

---

### e-NRG BIOETHANOL

---

The most eco-friendly of our options, our Ethanol technology offers ultimate flexibility. Whether setting up for indoor or outdoor use, our ethanol systems are installed and operating in a matter of minutes. Completely self-contained, ethanol provides the freedom to relocate your fire as desired without limitations.
